

For immediate release – Ancona (IT), September 2019

Videoworks at the Monaco Yacht Show 2019 Technology at the service of entertainment and well-being on board

- **At the Monaco Yacht Show (25-28 September 2019, stand DS109, DARSE SUD), Videoworks will reveal an interesting series of “on board high-tech solutions”**
- **The most recent technological innovations will be announced during a press conference, scheduled for Thursday 26 September at 17.30**
- **At the stand, the excellence of the onboard audio systems is highlighted by the innovative Slim Audio Master, the Mover wall with integrated speakers and the interactive Party Pack**
- **A lighting system that reproduces the circadian rhythm will show how the lighting technology currently available to yacht designers has evolved**
- **Videoworks is on board an exciting superyacht line-up with name like Columbus Yachts M/Y Dragon – 79,5m, Crn 135 – 78,8m, Baglietto M/Y Severin’s – 55m, Riva M/Y Race – 50m, Extra 130 Alloy 39,8m, Riva 110 M/Y Dolcevitita – 33,53m, Cerri Cantieri Navali M/Y Vanadis – 31m**

Technological innovation, new audio systems, walls with integrated speakers and circadian rhythm lighting - here is a rich portfolio that enthusiasts will be able to discover in the Videoworks stand during the Monaco Yacht Show 2019 (25-28 September).

THE PUREST OF PURE SOUNDS

The excellence of the audio systems that, on the one hand, deliver pure, high-quality sound reproduction and, on the other, are suitable for an onboard party, has become a crucial aspect of the integration of onboard systems. In terms of sound management, the Monaco event will be the world première for the SAM, Slim Audio Master, the innovative rack created to optimise size and space-saving on board and to enhance the system's performance.

Jointly designed by the R&D departments of Videoworks and of Leaff and manufactured by the latter company exclusively for the naval sector of Videoworks, SAM controls up to 16 audio outputs and allows to calibrate sound perfectly in every individual setting while guaranteeing space-saving.

The Slim Audio Master can, among other things, equalise sound in every individual environment, optimising sound reproduction.

The SAM system in the Videoworks stand will also manage another new product introduced by the Italian company, i.e. Mover, the aluminium wall with integrated speakers, now offered in a new configuration that allows to reproduce low and medium-high frequency sounds. Mover, produced by the Tuscany-based company Power Soft, was first designed for the world of video gaming and home theatre and can use vibrations to simulate sounds and movement effects. Through the integration with speakers achieved by Videoworks, it can now reveal all the potential of producing sound from different materials.

PARTY PACK, ON BOARD ENTERTAINMENT

Videoworks has also thought of entertainment lovers, presenting a real Party Pack that integrates ad hoc systems designed for the world of yachting. Specifically, the audio system has small and elegantly designed K-array speakers and subwoofers that can deliver an excellent performance - their output is up to 110 dB. The sound will be enhanced by a RGB lighting system in the ceiling that will be synchronised with the sound. The Party Pack is completed by a new generation Samsung QLED 98" 8k TV screen.

THE SUN IN A ROOM

The relationship between human beings and nature is one of the essential aspects of going to sea, even when sailing on a megayacht. For this reason, Videoworks has built a circadian rhythm lighting system, which provides a perfect reproduction of the temperature and tone of sunlight inside the yacht at every time of the day, from dawn to dusk. This solution increases the well-being of guests on board in a natural way. Visitors will be able to experience the change in sunlight in a few minutes thanks to a special LED-lighting panel made up of 50x50 tiles.

A SELECTION OF YACHTS ON DISPLAY FEATURING VIDEOWORKS AUDIO/VIDEO, DOMOTICS, ENTERTAINMENT, LIGHTING AND NETWORK SYSTEMS:

- **COLUMBUS YACHTS** M/Y DRAGON – 79,5m
- **CRN 135** – 78,8m
- **BAGLIETTO** M/Y SEVERIN'S – 55m
- **RIVA** M/Y RACE – 50m
- **ROSSINAVI** M/Y POLARIS – 48m
- **CUSTOM LINE** NAVETTA 42 – 41,8m
- **EXTRA 130 ALLOY** – 39,8m
- **RIVA 110** M/Y DOLCEVITA – 33,53m
- **CERRI CANTIERI NAVALI** M/Y VANADIS – 31m

About Videoworks

The Videoworks Group is the undisputed leader in AV and IT integration in European yachting. With business premises in Ancona, Viareggio and Aalsmeer, in the heart of the Italian and Dutch boatbuilding districts, and in Fort Lauderdale, the yachting hub of North America and the Caribbean, and with partners all over the rest of the world, including South America, Southeast Asia and China, the Group responds to the demands of a highly selective international clientele.
